Experience

Land Transportation Office — Quezon City, Metro Manila
Administrative Assistant | *Internship* — January 2024 - May 2024

- Coordinated administrative operations and document management processes, ensuring the accurate handling of critical records and supporting seamless office workflows.
- Developed and maintained organized digital and physical filing systems, enhancing data accessibility, record accuracy, and operational efficiency.
- Provided technical assistance for office equipment, computers, printers, software applications, and user-related issues, minimizing operational disruptions and improving staff productivity.

Philippine Statistics Authority — Antipolo City, Rizal
Team Supervisor | *Field Operation (Contract)* — July 2024 - February 2025

- Led and supervised a data collection team, ensuring the timely delivery of accurate statistical reports while consistently meeting project deadlines and performance targets.
- Implemented quality assurance and data validation processes to ensure data accuracy, integrity, and compliance with project standards and reporting requirements.
- Trained and mentored team members on data collection methodologies, reporting procedures, and best practices, improving overall team productivity and operational efficiency.

SP Madrid and Associates — Quezon City, Metro Manila
Contact Center - Collection Specialist I — April 2025 - September 2025

- Managed and coached a team responsible for client account management, payment negotiations, and debt recovery operations, driving performance, productivity, and collection targets.
- Supported the rollout of newly implemented AI-driven operational strategies, promoting process optimization, improving team efficiency, and enhancing customer engagement outcomes.
- Conducted user training and knowledge-transfer sessions for newly developed applications, guiding employees through installation, configuration, and effective system utilization to improve adoption and operational readiness.

CONCENTRIX — Quezon City, Metro Manila
Customer Advisor I | *Retail & Telecommunication* — October 2025 – May 2026

- Provided chat and voice support for customers, handling inquiries related to accounts, billing, services, products, and network concerns.
- Resolved customer issues through effective troubleshooting, professional communication, and timely case management to maintain high customer satisfaction.
- Utilized CRM and support systems to document interactions, manage customer records, recommend appropriate solutions, and ensure accurate case resolution while meeting service quality standards.

UNISYS Corporation — Mandaluyong City
Associate Technical Service Desk | *L1 Service Desk Analyst* — May 2026 – Present

- Delivered first-level IT support for hardware, software, network, and access-related issues, consistently meeting service-level agreements (SLAs) and maintaining a positive user experience.
- Administered user accounts and permissions through Active Directory, SailPoint, and Okta, supporting identity lifecycle management, access provisioning, authentication, and security compliance.
- Leveraged ServiceNow and Splunk to manage incidents, monitor system events, document resolutions, perform troubleshooting, and coordinate escalations to specialized support teams.

Skills & Interests

- IT Service Desk & Technical Support – Experienced in providing first-level technical support, incident resolution, user assistance, and troubleshooting across enterprise environments.
- Identity & Access Management (IAM) – Proficient in user provisioning, access reviews, account lifecycle management, and authentication support using Active Directory, SailPoint, and Okta.
- Active Directory Administration – User account management, password resets, access provisioning, group policy administration, and permission management.
- ServiceNow Ticket Management – Incident tracking, request fulfillment, documentation, SLA adherence, and escalation coordination.
- System Monitoring & Log Analysis – Experience using Splunk for system monitoring, event analysis, troubleshooting, and incident investigation.
- Hardware & Software Troubleshooting – Diagnosing and resolving desktop, application, hardware, software, and connectivity-related issues.
- Microsoft 365 & Office Productivity Tools – Proficient in Microsoft 365, Microsoft Office applications, collaboration tools, and internet technologies.
- Web Development Fundamentals – Knowledge of HTML, CSS, JavaScript, PHP, and website development principles.
- Basic Programming – Knowledge of .NET Framework and software development concepts.
- Data Analysis & Reporting – Skilled in Microsoft Excel, data management, reporting, and documentation.
- Team Leadership & People Management – Experience leading teams, mentoring colleagues, delivering training, monitoring performance, and driving operational excellence.
- AI Adoption & Change Management – Supported the implementation and adoption of AI-driven initiatives, user enablement, process improvement, and technology transformation efforts.
- Customer Service & Communication – Strong verbal and written communication skills with experience supporting internal users, stakeholders, and customers.
- Problem-Solving & Analytical Thinking – Proven ability to analyze complex issues, identify root causes, and implement effective solutions.
- IT Security Awareness – Understanding of access governance, authentication, security best practices, identity management, and compliance principles.
